

Premium DSL Service

Startec Global Communications offers premium ADSL service for small businesses. Our business-grade, high-speed Internet access gives your business a high quality cost effective presence on the web. Startec's Asymmetrical DSL service provides the benefits of high speed Internet access with the savings associated with DSL service. Business-grade DSL means your service will not be subject to the congestion of other DSL services – and with Startec Business ADSL you get static IP addressing for web and email hosting .

Startec Business ADSL Service features the following:

- **1.5Mbps downstream /768kbps upstream**
- **Static IP address included**

- **24/7 Network Operations Center Support**
- **5 Static IP Addresses or 1 Address with Network Address Translation (NAT)**
- **10 email addresses at yourname@estart.net**
- **Accommodates multiple users on one connection, reducing dial-up lines**
- **Email support**
- **Live phone support**
- **DSL router provided by Startec**
